Main theory- Questions and then Answer

Accounting

No theory for now

Questions Bank

1. ICAB Last twenty years questions
2. Download ICAEW Question (MCQ)
3. Download ACCA Questions (MCQ)
4. ICMAB Questions (Past Questions)
5. Manual Self test+ Interactive Question+ Worked Example

Time plan for exam

90 minutes-less 5 minutes for other activities= 85

1. $2.5 \times 51 \text{ sec} = 127.5 \text{ sec} / 2 \text{ minutes} = 24$

$Q \times 51 \times 2.5 = 3,060 \text{ secs} / 51 \text{ minutes}$

(here you have to save at least 10 to 15 minutes)

2. Scenario based- $40 \text{ marks} \times 51 \text{ sec} = 2040 \text{ sec} / 34 \text{ minutes} + 10/15 \text{ minutes} = 45\text{m to } 50 \text{ minutes}$
